

Pet Contact Profile Checklist

A simple route for a finder. Fill this in without entering private contact or health details.

01 Choose who owns the page

Pick a role, not a person's name.

- ☐ Pet owner ☐ Household contact ☐ Other role: _____

02 Choose the contact route

What should a finder do first? Keep actual details on the page you control.

- ☐ Call ☐ Text ☐ Email ☐ Other _____

03 Choose practical notes

Only add notes you intend a finder to see. These examples are non-medical.

- ☐ Please contact the owner ☐ Keep the gate closed
☐ This pet is shy around unfamiliar people ☐ Other short note _____

04 Check what stays off the page

A public contact route can be reached by people you do not know.

- ☐ Home address ☐ Entry or access codes ☐ Daily schedule
☐ Unnecessary health details ☐ Anything not meant for a finder

05 Test the tag before it goes on the collar

Use a compatible phone and check the destination you selected.

- ☐ Profile opens ☐ Contact route is visible ☐ Notes are current

Attachment fits the collar and is secure: [] Yes [] No Water-resistance rating verified: [] Yes [] No

06 Choose when to review

Check again when the destination or contact route changes.

- ☐ Contact method changes ☐ Pet moves households ☐ Other _____

THE NFC TAG POINTS TO YOUR PAGE.

It is not GPS or live tracking, and does not replace an implanted microchip or registry.
